

IN THE SPECIFICATION:

Please replace paragraph [00037] with the following:

[00037] A radial groove 11 is provided in the connecting flange 12 in the region of each through-hole 6. Radial groove 11, as shown in Figure 1, extends outward toward away from a center longitudinal axis of the hub starting from the through-hole 6 relative to a pitch circle diameter 13, and on which the clamping bolts 4 or the through-holes 6 are arranged in a symmetrically distributed manner.
